Story of Aavatto

At **Aavatto Private Limited**, we help businesses streamline daily operations through practical digital solutions, specializing in ERPNext implementation on the Frappe Framework. We unify core functions like sales, finance, inventory, and HR into a single, efficient system while also delivering custom software, e-commerce platforms, and tailored business applications.

Our approach focuses on adapting technology to real business workflows—not the other way around—ensuring scalable, reliable systems that enhance operational clarity, efficiency, and informed decision-making for long-term growth.

Why we stand out

Through practical experience implementing ERPNext on the Frappe Framework, **Aavatto Private Limited** works with businesses to set up and adapt ERP systems that align with their actual processes. The focus is on thoughtful implementation and customization so teams can manage operations with better visibility, structure, and consistency.

Experience and Expertise

Aavatto is a trusted software IT company. Our team of skilled professionals excels in delivering tailored solutions for clients across sectors.

Client-Centric Approach

We prioritize our clients' success by understanding their unique needs, forging collaborative partnerships, and providing exceptional service.

Quality and Innovation

At Aavatto, we are committed to delivering topnotch solutions through a combination of quality craftsmanship and innovative thinking.

Our Services

Custom ERPNext Development

Tailored development and customization of ERPNext to match unique business workflows, automate operations, and enhance overall system efficiency.

ERPNext & Frappe Implementation Services

Implementation, customization, and deployment of ERPNext using the Frappe Framework to streamline finance, sales, inventory, and HR operations.

Frappe HRMS & CRM Solutions

Implementation and configuration of HRMS and CRM modules to manage employees, recruitment, payroll, customer relationships, and sales processes in one system.

Custom Integrations

Integration of ERPNext with third-party platforms such as payment gateways, e-commerce stores, logistics systems, and other business applications.

eCommerce Solutions

Development and integration of eCommerce platforms with ERP systems to manage products, orders, inventory, and customer data seamlessly.

Smart Warehousing Solutions

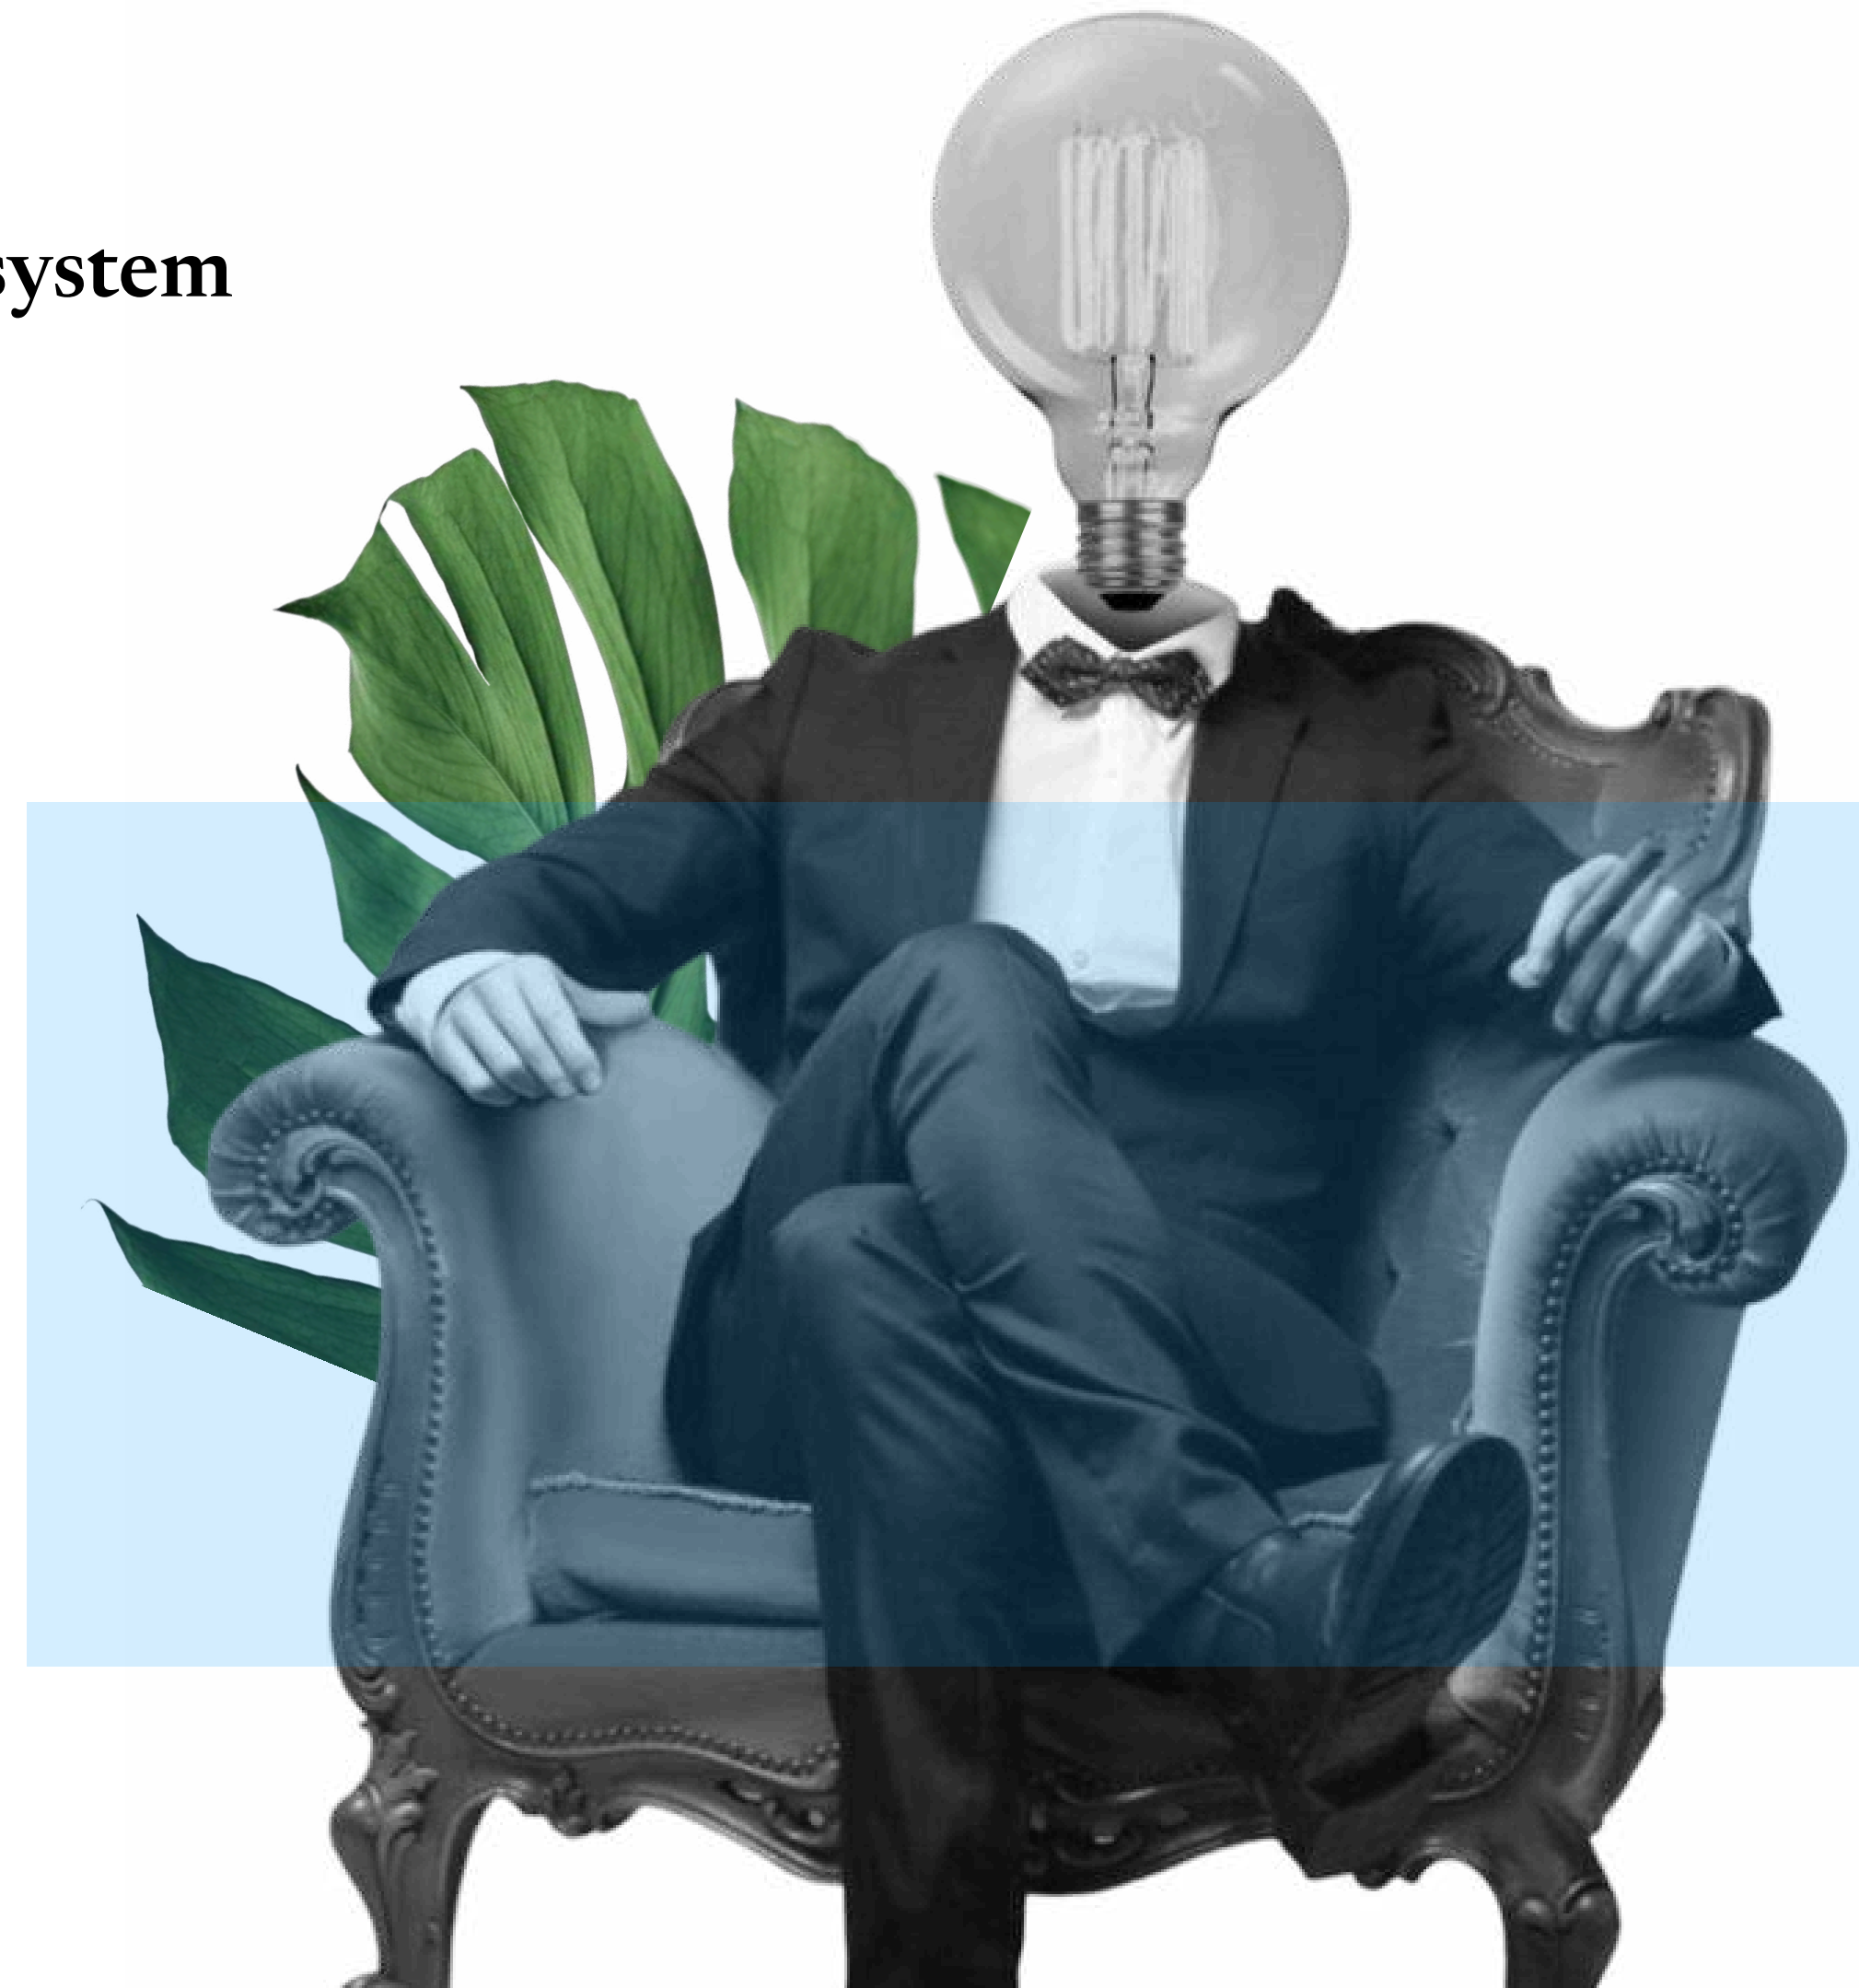

Implementation of warehouse management systems to optimize inventory tracking, stock movement, order fulfillment, and warehouse efficiency.

Industries We Serve

 FMCG	 Fashion & Apparel	 Healthcare & Pharma	 Manufacturing

Our Innovations

- 01 Univentory - Smart warehouse management system
- 02 Tykkit - Event Listing Platform

Univenty - Smart warehouse management system

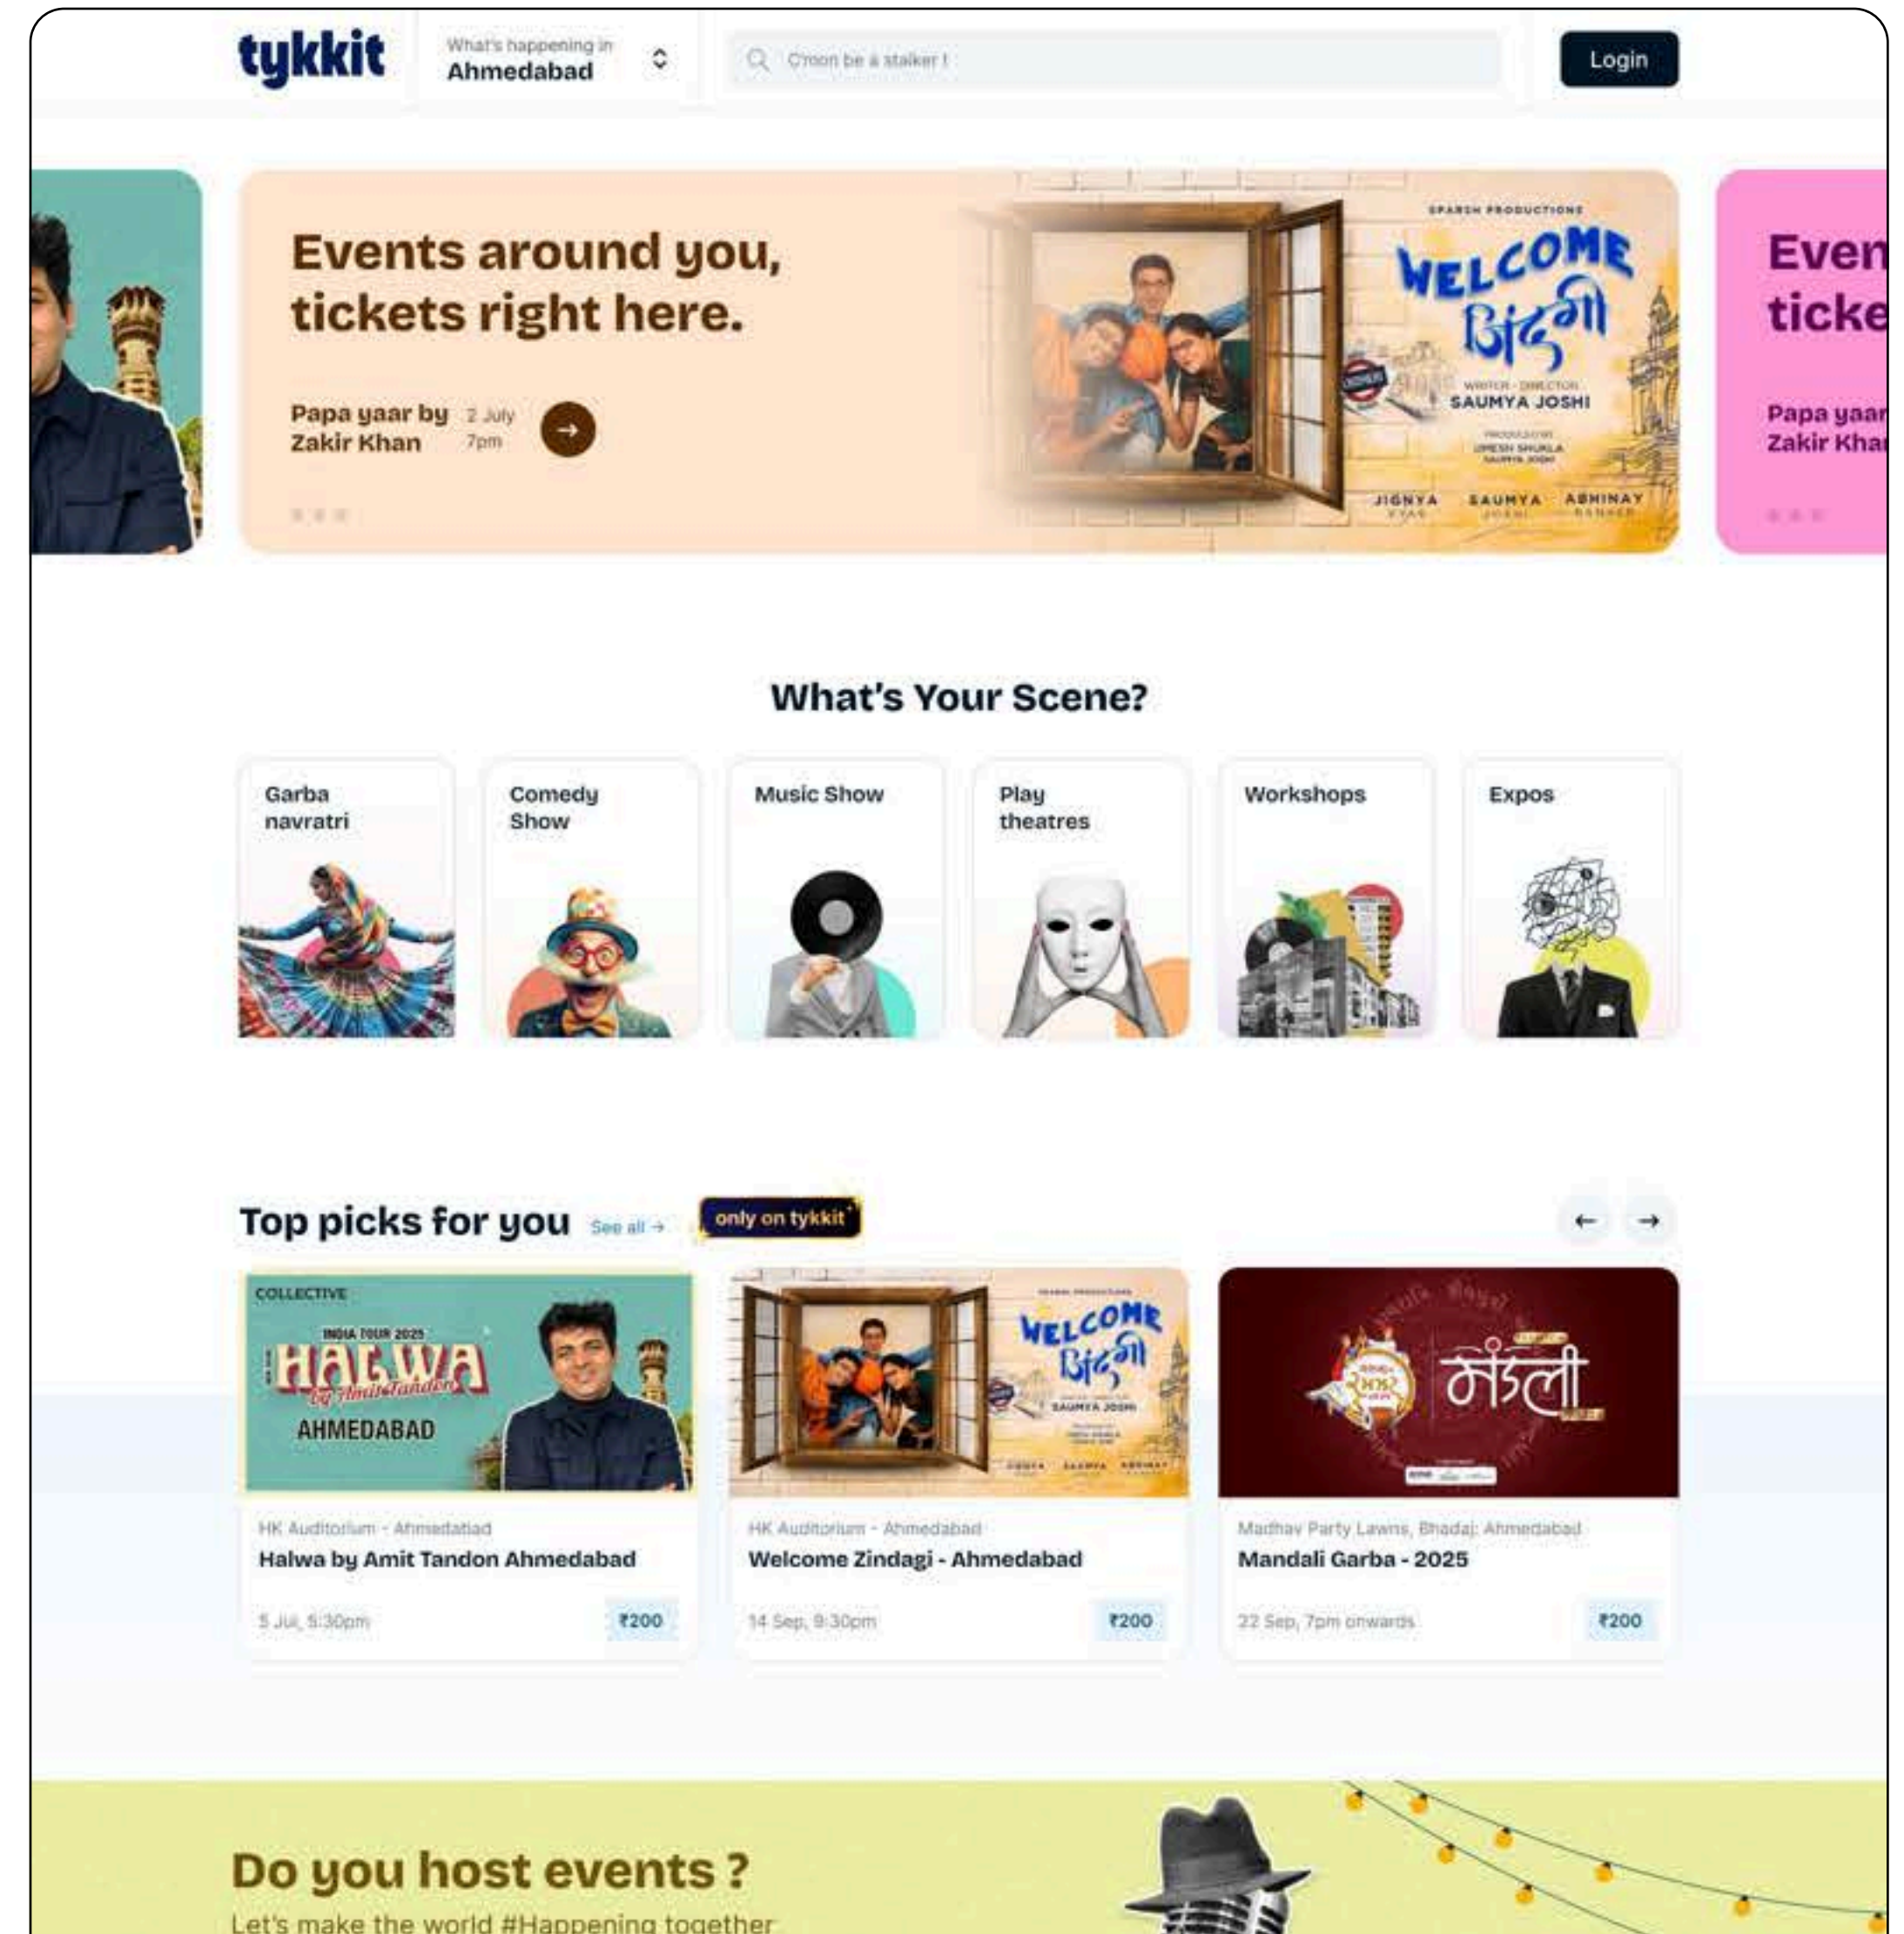

- ✓ Inventory Management
- ✓ Warehouse Management
- ✓ Order Management
- ✓ Purchase Orders
- ✓ Pick Pack Ship
- ✓ Multi-Carrier Shipping
- ✓ Point of Sale (POS)
- ✓ Insights Reporting & Analytics
- ✓ Real-time dashboards and custom reports
- ✓ AI Automation

The image displays the Univenty Warehouse Management System (WMS) interface. At the top, the Univenty logo is followed by navigation links: Solutions, Integrations, About, and Resources. A 'Contact Us' link and a 'Get a Free Demo' button are also present. The main heading reads 'Warehouse Management System For Shopif I'. Below this, a subheading states: 'Transform your operations with intelligent automation. Get a warehouse management system with AI automation, real-time tracking, and seamless integrations.' A 'Schedule a Free Demo' button is prominently displayed. The interface features a sidebar with a menu including: Items (Products, Adjustment, Transfers, Request Transfer, Products Reviews, Settings), Sales (Customers, Orders, Abandoned Checkouts), and Fulfillment (Batch, Picking, Packing, Shippings). The main content area shows an 'Inventory' table with columns for Warehouse, Total, and Action, and an 'Orders Picking' table with columns for ID, Warehouse, Batch Orders, Progress, and Status. A 'Order Fulfillment' donut chart is visible in the top right corner. At the bottom, a footer section highlights key features: 'Implemented within 30 Days', 'AI-powered automation', and '25+ integrations included'. Below this, a statement reads 'Trusted by over 50+ companies', followed by logos for Infotainment REPAIR, CARBAM, SABAHOO, Sheetal, and Info authors.

Tykkit - Event Listing Platform

- ✓ Start Selling in Minutes
- ✓ Smart QR Checkins
- ✓ Seamless Payments
- ✓ Split and Share
- ✓ Custom Seating Layout
